

ALL-INCLUSIVE ADVENTURES

Move your world

Combination meters:

The instrument panel integrates speedometer and tachometer meters accented by elegant chrome-plated rings. Three-dimensional scales enhance visibility to provide vital driving information at a glance. The multi-information display in the center of the meters displays fuel efficiency in an intuitive format, together with an eco-bar indicator.

Smart Entry & Start System:

When carrying the Electronic Key, all doors can be unlocked by simply pressing the switch in the door handle, and the car started by depressing the brake pedal and pushing the engine switch. Pushing the switch again stops the engine.

Air-conditioning system:

The excellent heating and cooling performance of the auto air-conditioning keeps the interior at a comfortable temperature, for enjoyable driving comfort whether it is hot or cold outside.

Rear air-conditioner:

The rear cooler integrated in the roof further boosts comfort in the rear seats, for all occupants to ride in comfort.

'The mechanical key is built into the Electronic Key. Electronic Key caution: Radio waves may affect electric medical devices. Individuals with devices including cardiac pacemaker implants should keep them from coming close to the Smart Entry & Start System antennas. The transmission of radio waves can be disabled. Please inquire at your local dealer for details.

Note: Vehicles pictured and specifications detailed in this catalog may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

All-terrain capability:

Designed to traverse rough roads. the high approach and departure angles enable the Rush to navigate a variety of terrain.

Approach angle: 31.0°
 Ground clearance: 220mm
 Departure angle: 26.5°

Maneuverability:

The 5,2-meter minimum turning radius makes for easy driving and peace of mind in narrow parking spaces and alleyways.

2NR-VE engine:

Incorporates Dual VVI-i (Variable Valve Timing-intelligent), which continuously optimizes intake and exhaust valve timing in response to driving conditions to deliver excellent performance in various conditions, together with light weight and low friction components that contribute to high combustion and outstanding fuel efficiency.

Note: Vehicles pictured and specifications detailed in this catalog may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.

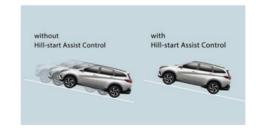

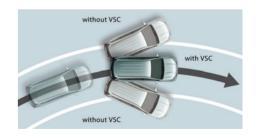

LED headlamps: Ensure excellent visibility at night and in low light while helping save power.

Back-up sonar: While backing out of a car park or garage, ultrasonic sensors detect obstacles as the vehicle approaches them and alerts the driver with a buzzer and on the multi-information display.

Hill-start Assist Control: Helps to prevent the vehicle from rolling backward, for example when starting on a steep incline.'

VSC: When sensors detect conditions likely to cause skidding, it helps prevent front or rear wheel slip by optimally controlling engine power and braking force. 'I

Airbags:

Equipped with SRS driver airbag, SRS front passenger airbag, SRS side airbags (front seats) and SRS curtain shield airbags (front and rear seats). '2

11 The system may not operate properly depending on the weather, road and vehicle conditions or other factors. Be sure to read the Owner's Manual carefully. VSC: Vehicle Stability Control.

"The SRS (Supplemental Restraint System) airbags are supplemental devices to be used with the seatbelts. The driver and all passengers in the vehicle must wear their seatbelts properly at all times. Never install a rearfacing CRS (Child Restraint System) on the front passenger's seat. A forward-facing CRS may be installed on the front passenger's seat only when it is unavoidable. Please do not us accessories for the seats which cover the parts where the SRS side airbags should inflate. Such accessories may prevent the SRS side airbags from activating correctly, causing serious injury (Toyota genuine seat covers are specifically designed for models equipped with the SRS side airbags. To find out about availability in your area, please inquire at your local dealer). The photo shows all the SRS airbags activated for display purposes only (the SRS side and curtain shield airbags only inflate on the side of the collision in an actual accident). For details on these and other important safety features, be sure to read the Owner's Manual carefully.

Note: Vehicles pictured and specifications details in this catalog may vary from models and equipment available in your area. Please inquire at your local dealer for details on the availability of features.
